

# AI-Accelerated Patent Monetization

October 2025

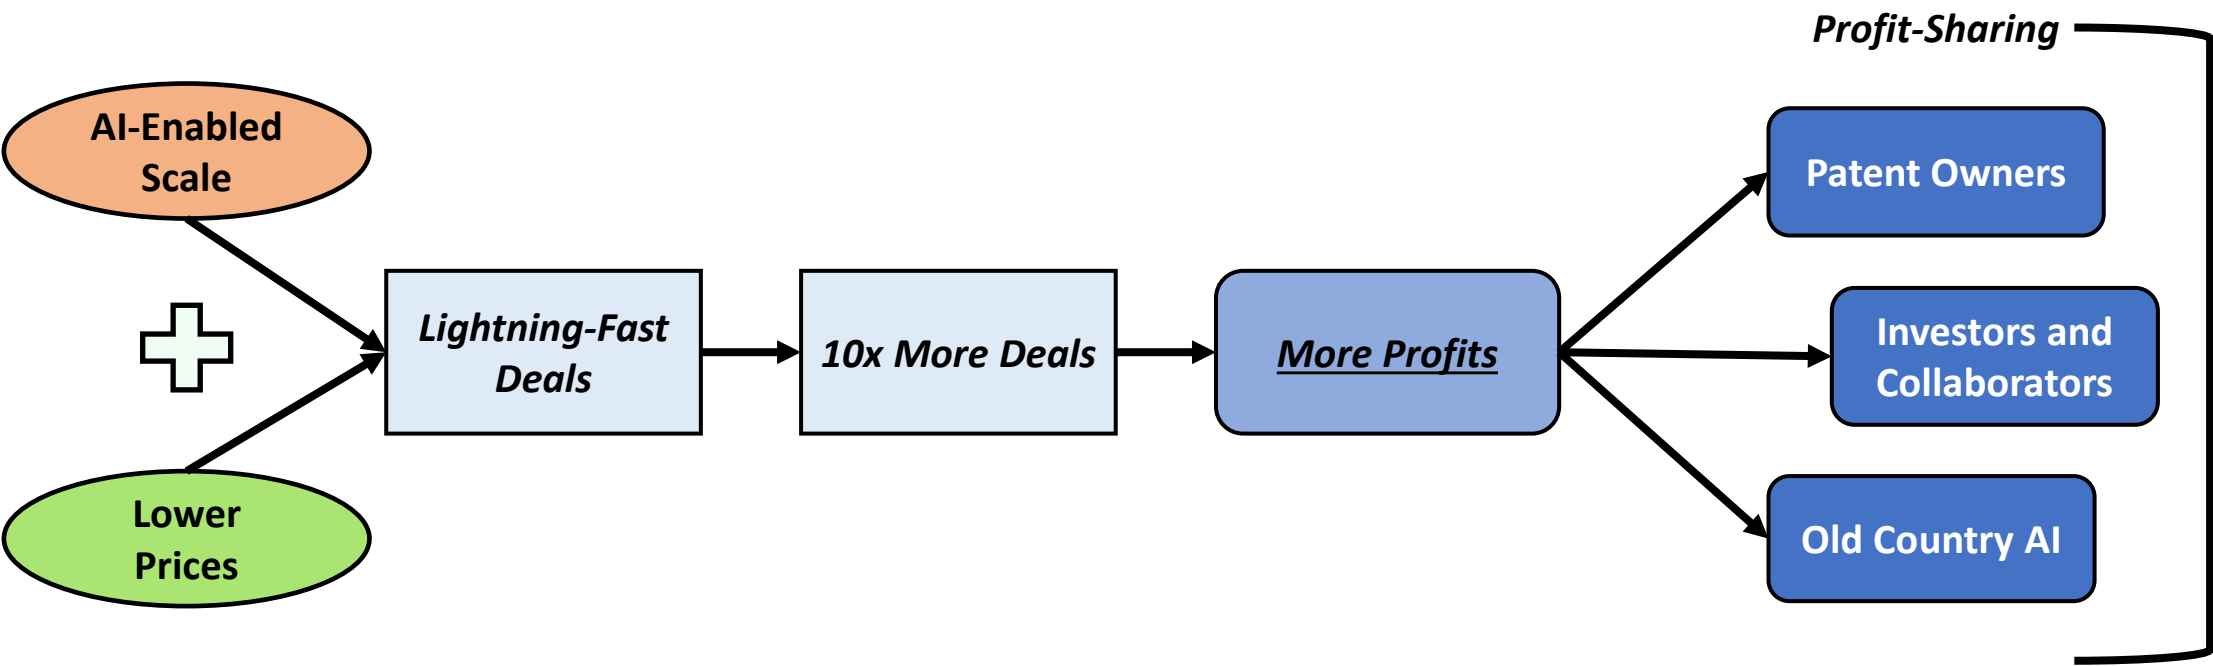

OLD COUNTRY **AI**

*Revolutionizing Agentic AI to Power the  
Businesses of Tomorrow*

# Agentic AI Unlocks Patent Monetization at Scale

- Patent owner retains 100% ownership
- We act only as your monetization arm
- AI powers the end-to-end monetization lifecycle
- We don't paid until you get paid

# Simple Conversation → Complex Operations

Prompt

**Dan** Sep 5th at 8:43 PM

new business: platform to identify distressed small and medium size business with strong IP. target is are investment banks that look to help the distressed companies to maximum their wind-downs

43 replies

# POC 1.0 Demo – ‘Onloop Counsel’

Onloop Counsel

7,477 lines of code • 33 files  
Python: 3,322 • Web: 3,740

## Onloop Counsel

Created by AgentMuse , an  OLD COUNTRY AI innovation.

8 components

### Onloop Counsel Administration Console

Create matter templates, configure SLA rules and pricing, manage users, and connect enterprise systems. Monitor utilization, throughput, quality, and AI performance with dashboard reports for continuous improvement.

[View Admin Console](#) [New SLA Rule](#) [Threshold Filter Report](#)

### Dashboard — Onloop Counsel

### Plain-English Matter Intake & Triage

A guided, NLP-powered intake form by Onloop Counsel

Describe your matter in plain English. Onloop Counsel extracts key facts, classifies matter type and urgency, checks for conflicts, and generates an initial work plan, timeline, and fees for review. Ready for client approval at larger matters.

[View Intake](#) [See Documentation](#)

### Onloop Counsel — Plain-English Intake

Enter your matter description below, use plain English — include dates, parties, dollar amounts, deadlines, and any concerns or objectives.

### AI Workplan Generator & Drafting Engine

Key: ai, workplan, and drafting

Onloop Counsel AI matter based engine plans, drafts, and produces a detailed, 50-100 page project plan and produces final draft pleadings, contracts, or patent filings for review, larger review. Configuration review goes, approval, review, and execution. Onloop Counsel's creation with generative AI means predictable delivery and human in the loop quality control.

# Go-To-Market: Development --> Automation

---

- **Q4 2025 (Building & Acquiring)**
  - Build the foundation of the AI platform
  - Strike deals with small & large patent holders
- **Q1 2026 (Semi-Automated)**
  - Deploy AI-driven patent analysis
  - Conduct low-volume/low-risk market tests
- **Q4 2026 (Full Scale Automation)**
  - Partner with AI-first law firms
  - Drastically increase the ALE's volume of activity

# About the Founder

- 2x entrepreneur
- Most recently, **Head of AI**, and business strategy lead at a publicly traded company
- *15 years* at NYC BigLaw firms practicing **IP, tech transactions, and M&A**
- *15 years* of **patent monetization experience** on every aspect of the business

**Dan Gurman**  
Founder & CEO

## Accolades

## Start-Ups

## Law Firm Experience

## Patent Monetization

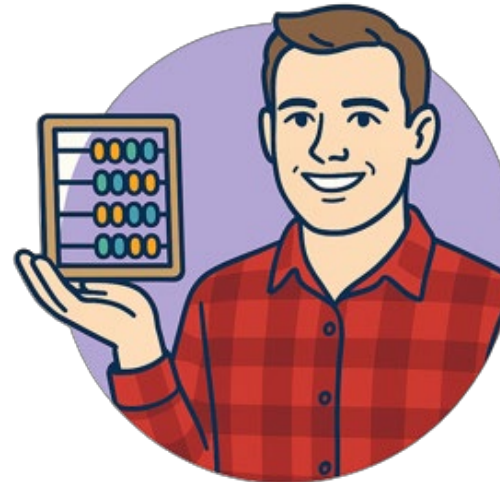

# With Gratitude from the OCAI Team
